VISSA NAGABABU

Phone: +91 8688920589 **Email:** vissa.nagababu@gmail.com
Address: Bapatla, Vinjumuri Vari Street 14-6-9

PROFILE

B.Tech Computer Science student with experience in AI Prompt Engineering, web development, and startup-focused projects. Proficient in Python, Django, JavaScript, and modern web technologies. Passionate about building innovative products, solving complex problems, and leveraging AI to create impactful user experiences.

WORK EXPERIENCE & PROJECTS

FounderX

- Developed FounderX, a networking platform that connects entrepreneurs, startup founders, and investors.
- Implemented features such as user authentication, startup profiles, real-time messaging, and role-based dashboards.
- Built FounderTV, a content-sharing module for startup insights, updates, and entrepreneurial learning.
- Designed and integrated scalable full-stack solutions using modern web technologies to enhance user engagement and collaboration.

ServiceHub

- Developed Service Hub, a digital marketplace platform connecting users with trusted service providers across multiple categories.
- Implemented service listings, provider profiles, ratings, reviews, and direct communication features to improve user engagement.
- Designed an intuitive and responsive user interface to simplify service discovery, booking, and management.
- Built scalable full-stack functionalities to support seamless interactions between customers, freelancers, and businesses.

Mediquick

- Developed MediQuick, a healthcare platform designed to simplify medicine discovery, ordering, and delivery processes.
- Implemented features such as medicine search, inventory management, order tracking, and user-friendly navigation.
- Designed solutions to connect customers, pharmacies, and vendors, enabling efficient medicine procurement and distribution.
- Built scalable full-stack functionalities focused on accessibility, reliability, and improving the overall healthcare experience.
